

AMIT KUMAR JAIN

DATA & ANALYTICS LEADER | BI & DATA TRANSFORMATION | AI-ENABLED ANALYTICS | MICROSOFT FABRIC

Bangalore, India | +91-9980242350 | Amitkjain1989@gmail.com

LinkedIn: <http://www.linkedin.com/in/amitjain1989/> | Portfolio: <https://techvizbi.github.io/>

EXECUTIVE SUMMARY

- Data & Analytics leader with 12+ years of experience delivering BI transformation, self-service analytics, AI-enabled solutions and workflow automation across Oil & Gas, Retail, CPG and Supply Chain.
 - Lead global teams and end-to-end analytics initiatives, partnering with stakeholders across India, US, UK and Europe to translate business requirements into scalable BI and data solutions.
 - Strong expertise in Power BI, Microsoft Fabric, semantic modelling, DAX, SQL, APIs, Power Platform and Generative AI/Copilot.
 - Delivered measurable improvements in insight adoption, data quality and reporting efficiency through scalable analytics solutions.
-

CORE EXPERTISE

Analytics Leadership: BI Transformation | Self-Service Analytics | Solution Architecture | Stakeholder Management | Team Leadership | Client Management | Delivery Ownership

BI & Data: Semantic Modelling | Data Architecture | BI Migration & Modernization | Performance Optimization

AI & Automation: Generative AI | AI-Enabled BI | Copilot Integration | Workflow Automation | Prompt Engineering

Integration & Security: API Integration | M2M Authentication | Access Tokens | Row-Level Security | Data Governance & Security

PROFESSIONAL EXPERIENCE

TREDENCE - Bangalore, India | Manager – Data Insights | Jan 2026 – Present

Lead AI and Analytics initiatives focused on BI transformation, self-service analytics, and AI adoption for enterprise clients, including **Kimberly-Clark (KC) across R&D and Supply Chain.**

- Transitioned reporting from A40 HANA to Snowflake, building standardized and reusable Power BI semantic models directly on Snowflake to enable scalable self-service reporting.
- Integrated Power BI with an MCP-based AI development workflow using GitHub Copilot and VS Code, enabling natural-language interaction with semantic models and AI-assisted DAX/model development.
- Designed an 11-step Data-to-AI Readiness Framework covering semantic models, KPI standardization, governance and certification to establish a scalable foundation for AI adoption.
- Support SOW development, effort estimation and delivery planning for clients, defining scope, priorities and execution approach.

SHELL INDIA - Bangalore, India | Senior Manager | Oct 2022 – Nov 2025

Supported global X-Data Exploration activities across Conventional Oil & Gas, Deepwater and Integrated Gas, leading BI and analytics initiatives for Wells and seismic performance monitoring.

- Wells AI Agent: Architected a Microsoft Fabric semantic model and natural-language analytics layer using Fabric Data Agent / Azure OpenAI, enabling leadership to query Well operations data conversationally and increasing insight consumption by 30%.
- PDI Data Product: Architected secure API-based data ingestion using M2M authentication and access tokens, with scalable semantic models supporting self-service analytics.
- Data Quality Dashboard: Designed rule-driven quality controls and Power Platform workflows, reducing data-quality issues by 65%.
- Owned end-to-end delivery across requirement gathering, architecture, design & development, stakeholder management and business adoption.

ATOS - Pune, India | Deputy Manager – KPO | Aug 2021 – Sep 2022

- Delivered Power BI solutions across annuity and ad-hoc projects, combining data modelling, SQL optimization and performance tuning for standardized business reporting.
- Built standardized KPI scorecards and automated reporting workflows across business units, consolidating data from multiple sources into unified reporting outputs.
- Developed a Power BI JV dashboard covering Headcount, Billing, Attrition and Error KPIs, implementing RLS, time intelligence, dynamic filtering and interactive drill-down analysis.

NIELSEN INDIA - Mumbai, India | Senior Research Executive – Data Science | Feb 2020 – Aug 2021

- Led CAWI, CAPI and CATI projects for Retail & CPG clients, delivering dashboards, scorecards and actionable consumer insights.
- Analyzed POS and Household Panel data to identify shopper behaviour, brand performance, market trends and gaps.
- Automated recurring monthly and weekly reporting using Advanced Excel and VBA, improving reporting efficiency.

WNS GLOBAL SERVICES - Bangalore, India | Assistant Manager – Research & Analytics | Mar 2015 – Jan 2020

- Led end-to-end analytics engagements for global CPG clients, partnering with business stakeholders on annuity and ad-hoc requirements and delivering insight-driven solutions using syndicated POS and household panel data.
- Developed Power BI brand-performance dashboards across European markets, analyzing category and brand performance, market share, distribution, IC-FC consumption and competitor benchmarks.
- Analyzed consumer and market trends to identify growth drivers, barriers and competitive shifts, supporting brand health and retailer performance across markets.
- Automated Nielsen data transformation using VBA, converting extensive source data into standardized scorecards and reducing reporting turnaround time by 70%.

TECHNOLOGY

Power BI | Microsoft Fabric | Snowflake | DAX | SQL | GitHub Copilot | MCP Server | Fabric Data Agent | Azure OpenAI | TMDL | Power Automate | Power Apps | REST APIs | VBA

EDUCATION

MBA – Marketing | Army Institute of Management, Kolkata | 2013–2015

B.E. – Electronics & Telecommunications | Amrutvahini College of Engineering | 2007–2011

AWARDS

Operational Excellence Award - Dashboard Design & Development

Operational Excellence Award - Automation of Manual Processes

Go Getter Award - Self-learning & Application of New Technologies
